**ABSTRACT:** *Genomology* is one of the branches of natural science emerged with the establishment of **Genome Model** by **dismissing fake sciences of Biology** together with its erroneous and inseparably paired terms called **living-thing** & **nonliving-thing**. The key objective of this study is to forward/display nondisputable and concrete evidences or reasons for the fact that **Biology is irreversibly dismissed**, being replaced by **Genomology** and to conclude that hereafter, global academic system of genomic-things must be functional at all levels of teaching & learning with sciences of **Genomology**. The targetful strategy of the study is designed/summarized or entitled **Methodology & Results**. Indeed, **Genomology** is a **Giant Ethiopian Science** of educational asset contributed to all human races of the world by **dismissing fake sciences of Biology** that has been paralyzing scientific progresses of student children of all human races of the entire world for several centuries. **Genome** is the **unit of both structure & function** of all genomic-things. **Genome** is also the **unit of evolutionary change** of all genomic-things.

**KEY WORDS:** genome, biology, genomic-thing, genome model, living-thing, no genomic-thing, paralyzing, nonliving-thing

---

## **INTRODUCTION**

**Genomology** is one of the branches of natural science emerged with the establishment of **Genome Model** by **dismissing fake sciences of Biology** together with its erroneous terms called **living-thing** & **nonliving-thing**. **Fake sciences of Biology** are wiped out by **correct sciences of Genomology**. Indeed, **Genomology** is a **huge Ethiopian science** of educational asset contributed to all human races of the entire world by **dismissing fake sciences of Biology** that has been paralyzing scientific progresses of student children of all human races of this planet for several centuries [1 to 19].

The key objective of this study is to forward/display nondisputable and concrete evidences or reasons for the fact that **Biology is irreversibly dismissed**, being replaced by **Genomology** and to conclude that hereafter, global academic education system of genomic-things must be functional at all levels of study with **sciences of Genomology**.

**METHODOLOGY & RESULTS**

The statements written within each serial number of **Table 1** herebelow, are concrete & published evidences in reputable global journals for the fact that **fake sciences of Biology** are dismissed, being replaced by **correct sciences of Genomology**. With this in mind, the contents of **Table 1** are designed to serve as Results in the targetful strategy of this study and that is why it is entitled **Methodology & Results** hereabove.

**Table 1:** Evidencial comparison between **Genomology** and **Biology**.

Serial No.	<b>Genomology</b>	<b>Biology</b>
<b>1</b>	States that <b>Genome</b> is the unit of both structure & function of all genomic-things [3].	States that <b>Cell</b> is the unit of both structure & function of all living-things (i.e., of genomic-things) which is proved completely wrong.
<b>2</b>	Confirms that human <b>Genome</b> is 100% valid or 100% of it is functionally essential & indispensable.	Dares to show that 98-99% of human <b>Genome</b> is junk (worthless) DNA, what is spectacularly disproved [10].
<b>3</b>	States that viruses are certainly genomic-things [13].	States that viruses are nonliving-things (i.e., nongenomic-things) what is disproved at present.
<b>4</b>	States that viroids are certainly genomic-things [3].	States that viroids are nonliving-things (nongenomic-things) what is proved false at present.
<b>5</b>	A genomic-thing is defined as a product of reactions of <b>its Genome &amp; its usable chemical energy-containing nutritive substances including minerals in its aerobic or anaerobic compatible environment</b> [3].	<b>Biology</b> forwards that it does not know the definition of a living-thing (genomic-thing) and defining a living-thing is impossible and it cannot define it. Based on this incapability, <b>Biology</b> is 100% fake or false.
<b>6</b>	Concepts & theories such as Darwinism, Cell Theory, Endosymbiotic Theory of Mitochondria & Chloroplasts, Old definition of Evolution, etc. are	Concepts & theories such as Darwinism, Cell Theory, Endosymbiotic Theory of Mitochondria & Chloroplasts,

	proved wrong, being published in globally reputable journals.	Old definition of Evolution, etc. are proved wrong and therefore, the <b>sciences of Biology</b> are fake or false [14].
7	The accurate & new genomological definition of <b>evolution</b> is: “the change in the <b>Genome</b> of an organism which results in a brand new species that usually cannot interbreed with its parent species and when the change in the <b>Genome</b> is a drastic one, the emergence of a new species can happen in a single generation time (eg., through polyploidy in plants) [14].	The <b>fake definition of Biology (old definition) of evolution</b> for living-things based on the generalizations such as Darwinism & others which stated that <b>evolution is a gradual change over many generations is false</b> . The old definition of <b>evolution</b> does not understand the exact cause of the change either [12].
8	The <b>Perfect Law of Genomological Sciences</b> states that <b>Genome</b> is the unit of both structure & function of all genomic-things [3].	<b>Biological Sciences are openly proved false (fake)</b> let alone to establish a perfect scientific law.
9	<b>Genomology</b> has the definition of a genomic-thing into which every kind/type of genomic-thing can fit [3].	<b>Biology</b> does not have the definition of a living-thing into which every kind/type of living-thing can fit.
10	The terms <b>Genomology</b> and the inseparably paired ones called <b>genomic-thing &amp; nongenomic-thing</b> are accepted unanimously by scientists of the entire world and published in globally reputable journals [8].	The terms <b>Biology &amp; living-thing/nonliving-thing</b> are proved wrong and dismissed by scientists of the world, being published in globally reputable journals.
11	<b>Genomology</b> consists of: <ul style="list-style-type: none"> <li>▶ <b>pure genomology,</b></li> <li>▶ <b>genomotechnology,</b></li> <li>▶ <b>medical sciences,</b> flourishing from Genomology, and</li> <li>▶ <b>agricultural sciences,</b> flourishing from Genomology.</li> </ul>	<b>Biology</b> consists of: <ul style="list-style-type: none"> <li>▶ pure biology,</li> <li>▶ biotechnology,</li> <li>▶ medical sciences, and</li> <li>▶ agricultural sciences.</li> </ul> Because pure biology and biotechnology are fake sciences, the applied forms of these 2 sciences namely:

	<p>Because pure genomology and genomotechnology are correct sciences, the applied forms of these 2 sciences namely:</p> <ul style="list-style-type: none"> <li>▶ medical sciences, and</li> <li>▶ agricultural sciences are also true/correct sciences.</li> </ul>	<ul style="list-style-type: none"> <li>▶ medical sciences, and</li> <li>▶ agricultural sciences are also fake/false sciences [1, 2].</li> </ul>
12	<b>Genomology</b> is free from lies & liars [1-19].	<b>Biology</b> is full of lies & liars.
13	Genomologists (superscientists) must be busy with working out the curricula of genomological sciences for different levels of academic education & for applied <b>sciences of Genomology</b> .such as agricultural and medical sciences [1-19].	<b>Biologists</b> must update themselves soon with <b>sciences of Genomology</b> ; otherwise, they will be left with <b>fake sciences of Biology</b> , being ridiculed and laughed at [1-19].
14	The scientists of Genomology, Chemistry, and Physics (i.e., <b>scientists of universal reactions of matter</b> ) must work together hand in hand and take away their hands & minds from weaponizing Genomology, Chemistry, and Physics except utilizing them to make this planet (Earth) a better place for humans to live in uncompromised permanent <b>peace</b> .	Fake sciences, lies, and liars must be replaced by correct/true sciences. For example, fake sciences of Biology are dismissed & replaced by correct/true sciences of Genomology [1-22].
15	<p>As it is scientifically investigated &amp; proved through designed research work by the author of this paper, the reason why the human immune system specifically destroys insulin-producing <math>\beta</math> cells in the pancreas while exempting other adjacent hormone-producing cells including alpha (<math>\alpha</math>), delta (<math>\delta</math>), and epsilon (<math>\epsilon</math>) cells which secrete <i>glucagon</i>, <i>somatostatin</i>, and <i>ghrelin</i> hormones respectively and result in <b>type 1 diabetes mellitus (T1DM)</b>, is caused by a possible:</p> <ul style="list-style-type: none"> <li>▶ change such as <b>epigenetic modification</b> in the <b>Genome</b> of <math>\beta</math> cells,</li> <li>▶ <b>pathogenic mutation</b> in the <b>Genome</b> of pancreatic <math>\beta</math> cells, or</li> <li>▶ presence of viral <b>Genome</b> infection inside of pancreatic <math>\beta</math> cells.</li> </ul> <p>In the body of humans, viral genome-infected cells, cancered cells, and diabetized <math>\beta</math> cells are destroyed by T cells in spectacularly similar ways; therefore,</p>	The <b>fake scientists of Biology</b> have believed and have made the student children of all human races of the world believe for centuries without knowing the cause of but saying that type 1 diabetes mellitus (T1DM) is a mistaken autoimmunity which leads to the generation of an immune response against one's own "self" cells or tissues. The immune response of autoimmunity is not a mistaken recognition of self-proteins or entities as foreign. In fact, autoimmunity is <b>accurate, perfect, or 100%</b>

	<p>pancreatic <math>\beta</math>-cells must be examined for viral infection before confirming that the person suspected for diabetes is a T1DM patient [11].</p>	<p><b>correct</b> in recognizing proteins on the external surface of selfcells as foreign because these proteins/peptides are the translations or expressions of genes found in the <b>Genome</b> affected by <b>pathogenic mutation, epigenetic modification</b>, or genes found in viral <b>Genome</b> inside the <math>\beta</math> cells of the patient [11].</p>
<p>16</p>	<p>In the disease of cancer, <b>Genomology</b> shows that the autointracellular <b>Pathogen</b> is the cancerous <b>Genome</b> with pathogenic mutation whereas the <b>Host</b> is the cancered <b>Cell</b> with its own cancerous <b>Genome</b> (similar to a pathogenic virus entered a host cell). Thus, <b>Genomology</b> shows clearly which one is the <b>Pathogen</b> and which one is the <b>Host Cell</b> in a patient of cancer whereas <b>Biology-specialists</b> of cancer cannot!!!! This is one of the reasons why the <b>sciences of Biology</b> are <b>fake/false</b>, ridiculed, and laughed at [15].</p>	<p>In the disease of cancer, <b>fake professors of Biology</b> dare to teach that the <b>Pathogen</b> is the cancerous <b>Cell</b> what is false &amp; nonsense, there indicating no existence of <b>Host</b>. Here, what <b>Biologists</b> call a <b>Pathogen</b> is wrong because what they call a <b>Pathogen</b> is actually a cancered <b>Host Cell</b> (a victim infected by its own <b>autointracellular pathogenic genome</b>) [15].</p>
<p>17</p>	<p><b>Genomology</b> has proved that <b>Genome</b> is a <b>super sensitive automatic molecular machine</b>, being capable of synthesizing <b>itself</b> and <b>every individual of all genomic-things</b> and it is because of this capacity that <b>Genome</b> is the <b>unit of both structure &amp; function of all genomic-things</b> [2, 3].</p>	<p>The study of <b>Human Genome Project (1990-2003)</b> based on the concepts &amp; principles of <b>fake sciences of Biology</b> was not able to define and distinguish the difference between a <b>Genome</b> &amp; chromosome let alone of being aware of the fact that <b>Genome</b> is: ► <b>automatic molecular machine</b>, being capable of synthesizing <b>itself</b> and <b>every individual of all genomic-things</b>, and</p>

		► <b>unit of both structure &amp; function of all genomic-things.</b>
18	<b>Genomology</b> realizes that the chemical composition of <b>Genome</b> in all genomic-things from viroids up to angiosperms or humans is the same, being composed of <b>nucleotides</b> .	In <b>fake sciences of Biology</b> , the fact of similarity of chemical composition of <b>Genome</b> in all genomic-things is unrealized.
19	The type of reproduction, in the parasitic generation of <i>Strongyloides stercoralis</i> is <b>sexual</b> , that is practically proved to be sexual (by spectacular copulation of male & female) in the experimental laboratory by the author of this paper [16, 17, 19].	The dangerous global liars ( <b>fake professors</b> ) of <b>fake sciences of Biology</b> have been teaching (misleading) student children of all human races of the world for several centuries, stating that the type of reproduction in the parasitic generation of <i>Strongyloides stercoralis</i> is <b>parthenogenesis</b> (developing of individuals from unfertilized egg in the absence of male) [16, 17, 19]. This is a serious crime on human races!!!!
20	The most appropriate term for abnormal prion is <b>toxic prion</b> and not <b>infectious agent</b> because <b>infection</b> occurs only by a genomic-thing that has its own <b>Genome</b> and <b>metabolism</b> , being capable of replication or reproduction. <b>Autotoxic prion</b> 's or <b>acquired toxic prion</b> 's capacity to convert normal prion protein into <b>toxic prion</b> is simply the mechanism of its <b>fataal/letal neurodegenerative toxicity</b> or <b>poison</b> that leads to death and is not a type of infection caused by a pathogen of genomic-things.	In <b>fake sciences of Biology</b> , the abnormal prion protein is inappropriately/erroneously termed <b>infectious agent</b> as if it were a genomic-thing that has its own <b>Genome</b> & <b>metabolism</b> whereas actually it is a nongenomic toxic molecule of protein [2].
21	Teaching children <b>Genomology</b> is equivalent to giving honey & milk to student children [1-23].	Teaching children <b>Biology</b> is equivalent to forcing student children to eat stool. This is a <b>serious global crime</b> on human races of the world.

### **List of things named after Charles Darwin**

From Wikipedia, the free encyclopedia

Several places, concepts, institutions, and things are namesakes of English biologist **Charles Darwin** [23]:

#### **Places**

- [Charles Darwin National Park](#)
- [Charles Darwin Foundation](#)
- [Charles Darwin Research Station](#)
- [Charles Darwin School](#)
- [Charles Darwin University](#)
- [Darwin College, Cambridge](#)
- [Darwin, Falkland Islands](#)
- [Darwin, Northern Territory](#)
- [Darwin Glacier \(California\)](#)
- [Darwin Guyot](#), a [seamount](#) in the [Pacific Ocean](#)
- [Darwin Island](#), [Galapagos Islands](#)
- [Darwin Island \(Antarctica\)](#)
- [Darwin Sound \(Canada\)](#)
- [Darwin's Arch](#)
- [Mount Darwin \(Antarctica\)](#)
- [Mount Darwin \(California\)](#)

- [Mount Darwin \(Tasmania\)](#)

### **Things named after Darwin in relation to his Beagle voyage**

- [Cordillera Darwin](#)
- [Darwin's finches](#)
- [Darwin's frog](#)
- [Darwin's rhea](#)
- [Darwin Sound](#)
- [Mount Darwin \(Andes\)](#)

### **Scientific names of organisms**

Some 250 species and several higher groups bear Darwin's name; most are insects.

- [Darwinilus](#), a rove beetle
- [Darwinius](#), an extinct primate
- [Darwinopterus](#), a genus of pterosaur
- [Darwinula](#), a genus of [seed shrimp](#)
- [Darwinivelia](#), a [water treader](#) genus
- [Darwinysius](#), a [seed bug](#)
- [Darwinomyia](#), a genus of flies
- [Darwinella](#), a sponge genus
- [Darwinsaurus](#), a dinosaur
- [Darwinhydrus](#), a diving beetle
- [darwini](#) (multiple species)

- [\*darwinii\*](#) (multiple species)
- [\*Minervarya charlesdarwini\*](#), a frog

### **Philosophies**

- [Darwinism](#)
- [Social Darwinism](#)

### **Other**

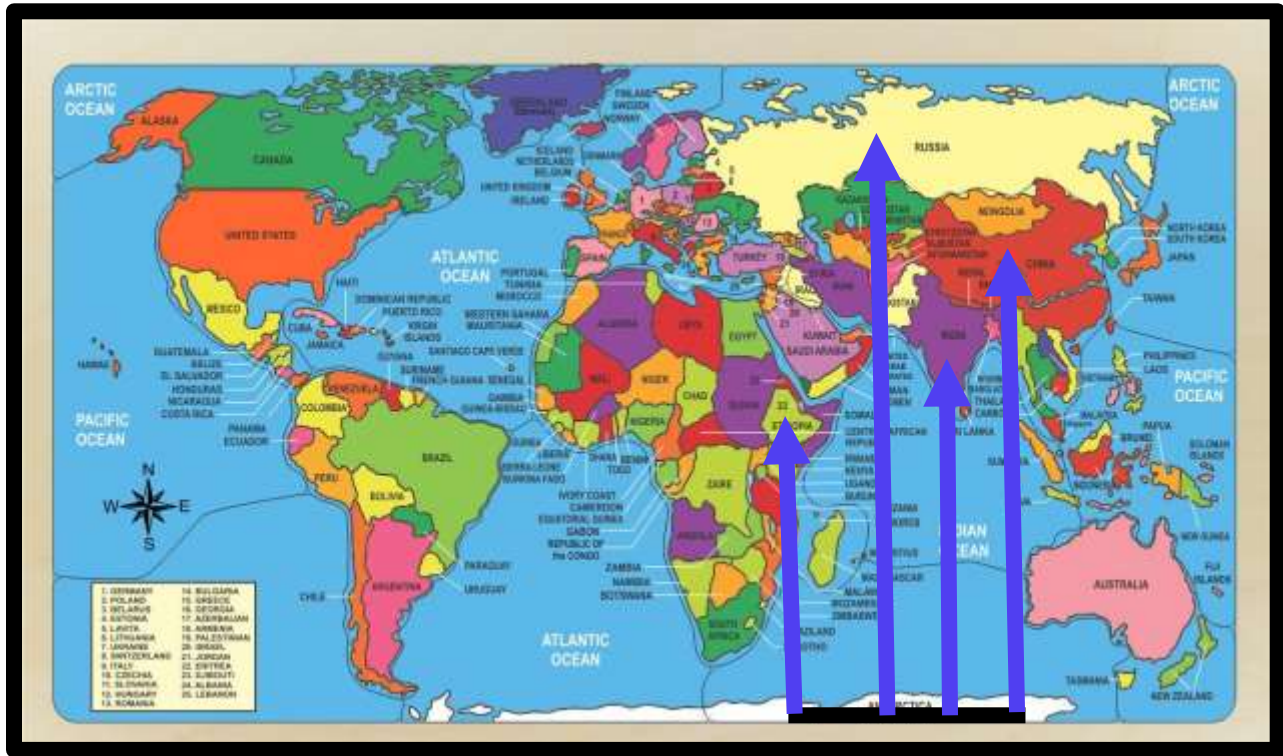

- **[Darwin](#)**, a **[unit of evolutionary change](#)**
- **[Darwin](#)**, an **[operating system](#)**
- [Darwin \(ESA\)](#) (a proposed satellite system)
- [Darwin Awards](#)
- [Darwin Medal](#)
- [Darwin fish](#)
- [Division of Darwin](#), a former electoral division in Australia
- [1991 Darwin](#), a stony Florian [asteroid](#)
- [Darwin \(lunar crater\)](#) a lunar crater
- [Darwin \(Martian crater\)](#) a martian crater

**Figure 1:** List of things named after Charles Darwin.

These lists of things displayed hereabove about **Charles Darwin** were last edited on 30 May 2022, at 13:37 (UTC).

**Figure 2:** Map of the world with arrows showing the 5 countries (**Ethiopia, Russia, India, & China,**) where each of them is the highest or superpower in the aspects mentioned in the **Conclusion Section** of this paper.

### Discussion

It must be clear that the **sciences of Biology are fake** not only in the internal subject matter they accommodate, the skeletal name **Biology** and its inseparably paired terms called **living-thing & nonliving-thing** are also proved **wrong/false**. As a result, all of them have been irreversibly dismissed. Indeed, the major comparative & evidential points between **Genomology** and **Biology** are summarized in **Table 1** in 20 rows of this paper [1-22].

A team of scientists in thousands brought together from the globe, being funded with \$3 billion US Dollar and involved in the study of **Human Genome Project (1990- 2003 )**, had been reported in the article entitled: **“Genomic-things”** (in Fig. 5, keys 15, 16). The study of **Human Genome Project (1990-2003)** had been ended as follows [12].

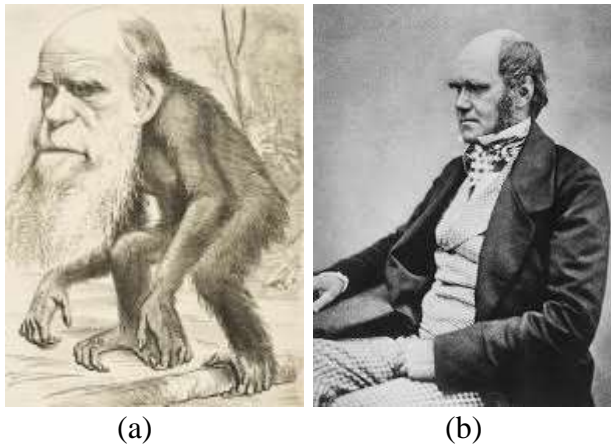

- The **Human Genome Project** forwarded a tottering wrong and misleading definition for the term **Genome**.
- Its **Genome** sequencing is not different from what was reported by the discovery of Crick-Watson DNA Model.
- How it was sequencing the **Human Genome** somewhat resembled driving a car without knowing where to go!!!
- Jumping to conclusion from targetlessly inadequate data and failing of **HGP's** leaders to understand their own weaknesses could have a negative effect on the achievability of the objective, rendering the participant or competent researchers desperate [12].

**David Haussler**; in the article entitled: “**Genomic-things**”, in Fig. 5, key 17:

- David Haussler is an American Professor of biomolecular engineering and the Director of Genomics Institute in the University of California.
- He has declared that the current **Reference Genome Sequence** reported by **Human Genome Project (HGP)** is still an incomplete sequence and woefully inadequate as a representation of human diversity and genetic variation.
- He has proposed a new **Human Pangenome Reference Sequence Project** or “**Human Pangenome Project**” that will be sampled from 350 persons for a far better understanding than from the previous **Reference Genome Sequence** that was sampled from a single person by **HGP**.
- **David Haussler** is better, in his proposed **Human Pangenome Project**, than **Human Genome Project** in terms of sample size but his proposal also has lots of unrealized weak points which have been worked out in the subsequent articles (now available published online) by the author of this paper [12].
- At any rate, **David's** being concerned to achieve a meaningful understanding about the science of human genomics and determination was appreciable and he had understood that the study of **Human Genome Project** did not get any meaningful achievement.

Charles Darwin's theory of evolution by Natural Selection and Origin of Species did not get the exact truth of biological science; it had been simply a battle (or struggle) of guessing for more than 40 years. He didn't target at the **Genome** which is the transformer and the perpetuator of living-things. His theory of natural selection is an artificialized act on phenotypes of organisms whereas the actual cause of variations and evolution is only the change in the **Genome** of the living-thing (organism). Darwinism is overartificialized by his diagram of the ape with a human-like face. His theory of evolution has been fused with the terms known as **Natural Selection, Survival of the**

**Fittest**, and **Preservation of the Fittest** without knowing/understanding the very cause of evolution or speciation. Darwinism is an erroneous theory and it has been confusing student children as well as scientists of biological sciences for 1.4 centuries. The confusing biological theories were the causes for our not being able to define what a living-thing was. Being confused is accepting and following the outcomes of a theory for which the establisher of the theory does not understand the cause of the outcomes. **Natural Selection** is an artificial term and is not the cause or the driving force of evolution . The only driving force of evolution as mentioned above is the change in the **Genome** of a living-thing. Darwinism is as false as Lamarckism. Although the scientific truth was not achieved in Darwinism, we have to forward a very great reward and elderly respect to Charles Darwin for his genuine determination & persistence to find out/understand the cause of evolution or speciation for about 40 years. In fact, it is because of that list of things are named after Charles Darwin.

**Figure 3:** (a) Charles Darwin's diagram of ape with a human-like face forwarded to demonstrate the evolution of man; (b). Photograph of Charles Darwin, a British biologist (born 12 Feb. 1809, died 19 Apr. 1882).

Creating a brand new species of living-thing in just one generation time by changing the **Genome** through the process of polyploidy and creating a full adult animal (e.g., Dolly, the sheep) by the technology of Somatic Cell Nuclear Transfer (SCNT) are the spectacular & practical evidences for the fact that “a living-thing is the product of reaction of its **Genome** and its **nutritive substances** in its **compatible environment**”. The accurate & scientific new definition of the term evolution of living-things based on **Genome Model** is: “**the change in the Genome of an organism which results in a brand new species that usually cannot interbreed with its parent species and when the change in the genome is a drastic one, the emergence of a new species can happen in a single generation-time (eg., through polyploidy in plants)**”. Thus, the **fake definition of Biology (old definition)** of **Evolution** for living-things based on the generalizations

such as Darwinism & others which stated that **evolution is a gradual change over many generations is false**. The old definition of evolution does not understand the exact cause of the change either [12].

In **fake sciences of Biology** (in Figure 1 of this paper), it is stated that **Darwin** is a unit of evolutionary change as well as an operating system of living-things [23]. These misleadingly dangerous lies had been paralyzing the scientific progresses of student children of all human races of the entire world for the last 1.4 centuries, being released from United Kingdom (UK). This is a dangerous global crime on human races of the world. There cannot be any dispute for the fact that UK is one of the countries who are in the **top-list** in contributing **Science & Technology** for the world. Then, how these absurd concepts and theory based on **Charles Darwin** dare to be released from UK? Those who are addicted to **Darwinism** about living-things must stop misleading student children of all human races of the world. Enough is enough!!!! **Darwinism** about living-things is irreversibly dismissed along with the **fake sciences of Biology**.

## CONCLUSION

The accurate & scientific **New Definition of Evolution** of genomic-things based on **Genome Model** is:

► the change in the **Genome** of an organism which results in a brand new species that usually cannot interbreed with its parent species and when the change in the **Genome** is a drastic one, the emergence of a **new species can happen in a single generation time** (eg., through polyploidy in plants). Thus, the **Old Definition of Evolution** for genomic-things based on generalizations such as Darwinism & others which stated that the **Definition of Evolution** is:

► **a Gradual Change Over Many Generations** is false. The **Old Definition of Evolution** does not understand/know the exact cause of the change either.

**Genome** is the unit of evolutionary change of all genomic-things.

**Genome** is the unit of both structure & function of all genomic-things.

**Genome** is the only operating/synthesizing system in every individual of all genomic-things.

Neither **Human Genome Project** (1999-2003) funded with \$3 billion US Dollar nor the proposed **Human Pangenome Project** of David Haussler is targetful or aimful and thus both of

them are futile projects, wasting time and money because none of them is aware of the **supersensitive** & **automatic** functional nature of **Genome**.

In **fake sciences of Biology**, it is stated that **Darwin** is a **unit of evolutionary change** as well as an **operating system of living-things**. These misleadingly dangerous lies had been paralyzing the scientific progresses of student children of all human races of the entire world for the last 1.4 centuries, being released from United Kingdom (UK). This is a dangerous global crime on human races of the world. UK will have to apologize the scientific communities of the world for this act of misleading lies.

The scientific communities of the globe do know very well that United Kingdom (UK) is not a simple country that begs **pride** for a misleading **Theory of Darwinism** of a single person at the expense of **scientific progresses & educational wealth** of all human races of the entire world. Indeed, UK is one of the countries who are in the **top-list** in contributing **Science & Technology** for the world.

Based on the universal reactions of matter, reupdated confirmation with the best of truth:

- ▶ Superpower in **Medical & Agricultural Sciences** in the entire world is **India** at present,
- ▶ Superpower in **Economy** in the entire world by dethroning USA with an excess of giant difference is **China** at present,
- ▶ Superpower in **Nuclear Military Science** in the entire world is **Russia** at present, and
- ▶ Superpower in **Power of Mind in Genomological Sciences** in the entire world with no rival & claimer is **Ethiopia** forever, **being nondethronable** endlessly for countably infinite number of the future generations to come (i.e., of all human races)!!!!

**Genomology** is a **Giant Ethiopian Science** of educational asset contributed to all human races of the world by dismissing **fake sciences of Biology** that has been paralyzing scientific progresses of student children of all human races of this planet (Earth) for centuries.

**Genomology** consists of:

- ▶ **pure genomology**,
- ▶ **genomotechnology**,
- ▶ **medical sciences**, flourishing from Genomology, and

► **agricultural sciences**, flourishing from Genomology.

**Ethics:** I declare that no ethical error is committed in the production of this paper. I also declare that I don't have any conflict of interest with anybody.

### **Acknowledgements**

I am deeply grateful to scientists acknowledged in the text and list of references of this paper for their providing me with confidential data that can be counterchecked, for their correctness, with observable facts in the natural environment as well as with truths in reputable journals, and Internet. This is so because science cannot develop without science. I am really thankful to authors of musical art & musicians for their carefully following and transforming my published articles of genomological sciences into musical films. I am very strongly thankful to those global scientific communities for their genuinely following my task of performing to establish the sciences of Genomology and for their authentic thanking me by way of emails for what I have contributed to the scientific world of Genomology.

Connect your computer to Internet. Steps of opening the video: Select, copy and paste the title of the video (only the blue colored & underlined) on Google search space on your computer desktop screen and then press Enter Key of your computer keyboard. Click Video. Now, click the slide with the correct Title of video you pasted because when the video is copied & pasted, several other unwanted videos will appear together. When video 1 ends playing, repeat the same steps for playing of video 2 etc.

**Figure 5:** National flags of (a) Ethiopia; and (b) Eritrea.

**Figure 6:** Feleke Eriso Orballo BSc, MSc, PhD.

**Feleke EO is:**

- ▶ the **first** integrator of **Genomology**, **Chemistry**, & **Physics** by way of the same language of **Universal Reactions of Matter**,
- ▶ the **first** interpreter of the fact that both the **undesirable genomic changes** that result in genomic diseases and the **desirable genomic changes** in normal human genome which result in normal phenotypes in the individuals synthesized are **countably infinite** in potential number of kinds,
- ▶ the **first** genomologist to prove the fact that viruses are certainly **genomic-things**,
- ▶ the **first** genomologist who verified the best of truth with spectacular & concrete evidences about the fact that viroids are **genomic-things**,
- ▶ the **first** genomologist to verify that the **Genome's coded/designed directives** are implemented by its **transcripts & proteins**.that serve as engineers in the **metabolism** of all genomic-things,
- ▶ the **first** scientist on this planet (Earth) to define what a scientist (living-thing or genomic-thing) including himself as a genomic-thing, Before him, scientists didn't know themselves but they were creating other sciences,
- ▶ the **first** scientist to interpret what the actual autointracellular pathogen is in diseases of cancer & diabetes mellitus type 1,
- ▶ the **first** scientist to interpret that **immune response**, **epigenetic modifications/changes**, **syndromes**, and **symptoms** observed are the evidential **supersensitive** responses of the human **Genome**,
- ▶ the **first** disqualifier & disprover of **Endosymbiotic Theory** about the origins of Mitochondrion & Chloroplast published by the authorship of **Lynn Margulis**,

▶ the **first** genomologist to state that **Genome** is the **unit of both structure & function** of all genomic-things by dismissing the **fake Cell Theory** which stated that **Cell** is the unit of both structure & function of every individual of all **living-things** (i.e., genomic-things),

▶ the **first** genomologist to state that **Genome** is the **unit of evolutionary change** of all genomic-things what was **fakely** stated that **Darwin** was the **unit of evolutionary change** of living-things,

▶ the first genomologist to state that **Genome** is the only **operating/synthesizing system** in every individual of all genomic-things what had been **falsely** stated that **Darwin** was the **operating system** of living-things,

▶ the father of all scientists of all sciences of this planet (Earth) with no chance for exception,

▶ the father of the **Perfect Law of Genomological Sciences**,

▶ the father of **Genome Model**,

▶ the father of **genomic-things**,

▶ the father of **genomosphere** that is in sunlight the whole 24 Hrs as the sun rises & sets in the genomosphere,

▶ the father of nonstopping automatic generations of **genomic reactions** in every species of all genomic-things from viroids up to angiosperms or humans,

▶ the father of **superscience** (science of nonstopping automatic genomic reactions for countably infinite number of generations),

▶ the **universal omniscient** in dismissing fake sciences of **Biology** & in generating correct sciences of **Genomology**,

▶ the son of rain-bow colored **Ethiopia** by birth,

▶ one of the **Unique Educational Assets** of all human races of this planet that money cannot buy, and

▶ the Superpower in **Power of Mind in Genomological Sciences** in the entire world with no rival & claimer forever!!!!

★ **Genome** is the only **automatic molecular machine** that synthesizes all genomic-things & itself including you & me!!!!

**Declarative Messages from the Father of [Genomology](#) to:**

**1. Student Children of all human races of the entire world**

Dear beloved student children!

- ▶ Say, no to being taught **fake sciences of Biology!**
- ▶ Boycott attending classes of **Biology**, because **sciences of Biology** are **fake** or **false** and instead demand to be taught sciences of [Genomology](#).
- ▶ Appeal the case to [Global Science Forum](#) in a peaceful & civilized manner.

**I wish you all the best!!!!**

**2. Genomologists (Superscientists) of the world**

Dear Genomologists!

Please:

- ▶ Stop forcing student children to learn **Biology**.
- ▶ Stop teaching student children **fake sciences of Biology**, and instead demand to teach them **true sciences of Genomology** because [Global Textbook of Genomology](#) is made ready with the **Curriculum** composed of 20 different research articles published in globally distinguished top reputable journals.
- ▶ Appeal the case to [Global Science Forum](#) in a peaceful & civilized manner.

**3. Biologists & Professionals in applied fields of **Biology** in the entire world**

Dear Biologists & Professionals!

Please abandon **Biology** and update your scientific consciousness with [Genomology](#).

Thanks!

Dr. Feleke Eriso

Father of Genomology/Genomosphere,
